

GENERAL FACT SHEET

BRIEF TITLE			REASON

DETAILS

Reason for Legislation
<p>This is a license agreement with Alltel to locate telecommunications facilities on Parks department property at the park at 9th and Van Dorn. The lease is for 10 years with 3 five year options. The application is a tower which the City will own. This will be a 3 provider tower. The rent for placement of antennas on this extension is \$23,175 per year, beginning after 16 3/4 months, with Alltel paying all the costs of the installation. Alltel is the 1st provider locating on this pole. The Urban Design Committee had previously reviewed the application and approved it and all subsequent applications which are similar on this pole. The Parks Advisory Board has also approved this application.</p>
Discussion (Including Relationship to other Council Actions)
<p>This is a continuation of allowing telecommunication placements on City properties at locations that do not interfere with City functions. Where such placements are on City property, the City has much more ability to require that the goals of the City's wireless ordinance be met (colocation, stealth, etc).</p>
